Red Hill Terrace	Forest City Contractor	Monday	Every other Thursday of the month	2 nd & 4 th Wednesday

*** A fine of \$50.00 or more for trash that is improperly disposed of will be charged to the resident.***

HOUSEHOLD REFUSE

- Please place your trash bin at the curb the night before your scheduled trash pick-up day and remove them from the curb side by 6:00 p.m. that day.
- Your household refuse is taken to the City's waste-to-energy (**H-POWER**) plant that reduces the need for landfills as it converts household solid wastes into electric power.
- In addition to normal household waste, the following items may be placed in your container:

- Tin / steel cans. Mechanical separators at the City's H-POWER plant pull ferrous and non-ferrous metals from the trash. The metal is cleaned and sold to a metal recycler.
- Paint. Small quantities generated at home can be disposed of with your regular household rubbish. Latex paints can be hardened in the can, then thrown away. Oil-based paints must be solidified with an absorbent material, such as shredded paper, old rags, or sawdust, then sealed in a plastic bag. An oil change box provides the same results.
- If you live on a one way street, please place your trash bin on the passenger side of the street. Do not block the road. All trash must be in trash bins, 5ft apart from each other and be free of any obstructions.
- If you miss your trash pick up day, please do not leave your trash bin on the curb.

BULK TRASH

- Please place your bulk refuse at the curbside by 6:00 a.m. on the scheduled pick up day.
- Residents whose services are provided by the City should note that the pick-up may take place 3 to 4 business days after the scheduled date. The City sometimes conducts a visual survey of the neighbors on the first day to estimate the amount of items to be picked-up. Metal goods (appliances) are picked-up by different crews that those picked up on the 2nd day and furniture on the 3rd day or vice versa.
- Please separate your metal appliances (air-conditioning units, washers, refrigerators, etc.) from your furniture items (sofas, chairs, bookcase, etc.)
- **Cardboard boxes are NOT considered bulk refuse. They must be broken down and placed in the regular trash bins or taken to a recycling center. For your convenience, please ask your moving company to remove all packing materials from your home, as required by their contract.**
- If you miss your bulk pick-up day, please do not leave your items on the curb. You may either store your items until the next month's scheduled collection or dispose of your items at any of the City's Convenience Centers. The nearest location for most of our residents is the Waipahu Convenience Center located at Waipahu Depot Road, **845-1162**. A complete listing of all 10 convenience centers operated by the City & County of Honolulu is at: http://envhonolulu.org/solid_waste/community_recycling_centers.html

RECYCLING

- All Forest City communities participate in a recycling program. Please refer to page one schedule.
- All household trash, whether collected by the City and County or by Forest City's contractors, is taken to the City H-POWER plant where metals are separated for recycling and other items are burned and converted to electrical energy. Thus, your normal household wastes are routinely being disposed of in an environmentally friendly manner.
- Residents who wish to take a more active role in recycling are encouraged to take their recyclables (newspapers, magazines, cardboard, aluminum cans (don't crush them,) plastic containers, etc.) to the nearest recycling centers:

Navy Exchange	Reynolds Recycling
4725 Bougainville Drive	850 Kamehameha Hwy
	Mauka of Bowling Alley
Tuesday & Saturday only	Monday – Saturday
	9am – 5pm

- A complete listing of the City's recycling centers can be found at: http://envhonolulu.org/solid_waste/community_recycling_centers.html

HOUSEHOLD HAZARDOUS WASTE

- Paint and motor oil may be disposed of in your normal household trash after they are completely dried with absorbent materials to prevent spills. Car batteries should be turned in where you bought the new one; also, most battery dealers will accept batteries for recycling, even if you didn't buy a new one from them. Other household hazardous wastes may require special handling – Please call the City and County of Honolulu's household hazardous waste phone line at 692-5411 and tell them what and how much you have.
